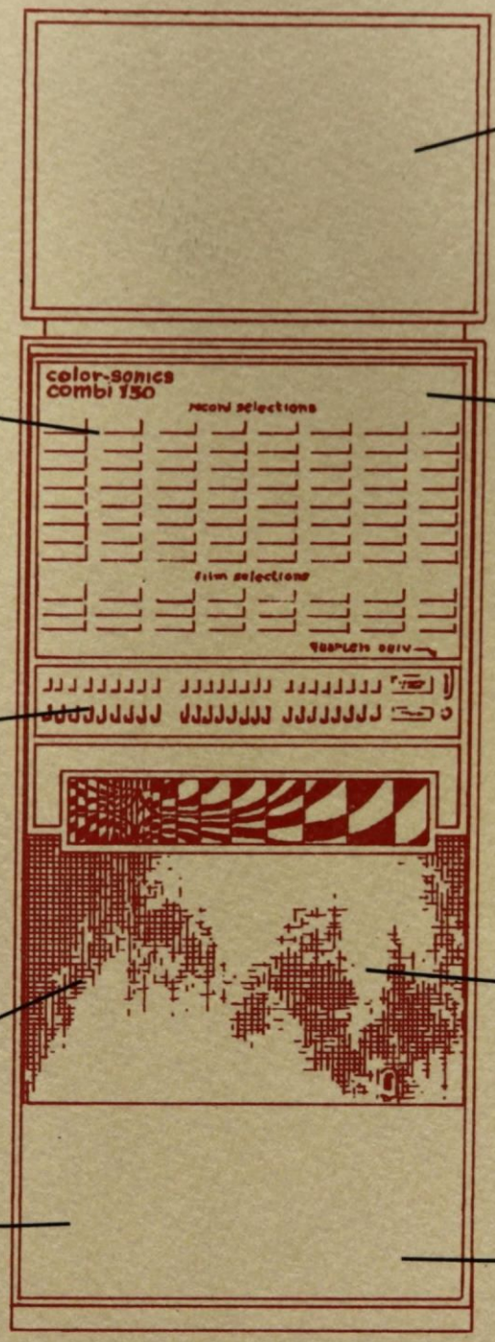
TECHNICAL SPECIFICATIONS

GENERAL DESCRIPTION

The Color-Sonics Combi 150 is a coin operated, film/record jukebox that plays 24 films and 128 record selections, both singles and albums.



PROJECTION SYSTEM

Optical System — Manufactured by Fairchild Camera and Instrument Company. Projection Lamp — 150 watt self-contained lens system — for clear, bright color pictures even in high ambient light.

INDEX

Easily changed tabs on hinged index panels identify all films and records.

FRONT DOOR ACCESS

Allows mechanism servicing, record and film change and coin removal. Standard electrical components utilized throughout.

SELECTION

Push buttons automatically select any film or record.

MEMORY SYSTEM

The Combi 150 will always "remember" which numbers have been selected.

SOUND SYSTEM

Amplifier — 20 stereo watts per channel — solid state all transistor — no warm-up time. Compatible with all external speaker systems. Six Speaker System — mid range crossover network in amplifier.

COOLING

Air cooled by filtered air.

CASH BOX

Mounted on inside of front door — locked with a separate key.

RECORDS AND FILMS

Color-Sonics supplies you with all films required for the Combi 150. Films are produced for Color-Sonics by Official Films — using first-rate professional facilities, including top name directors, cameramen and, of course, the biggest stars in show business.

DIMENSIONS:

27¾"w. by 34½"d. by 82"h.

ELECTRICAL SPECIFICATIONS

115-117 volt 60 cycle AC — 450 watts — NO SPECIAL WIRING REQUIRED.

REMOTE CONTROL

The control panel of the Combi 150, with its volume, balance, tone and reject controls, is removable and has an extension cable to allow placement convenient to location employees and out of reach of customers.
